

Habitat of _____

Name: _____

Date: _____

Draw a picture of your chosen animal/insect in their natural habitat. Include what they use for protection from predators, shelter, and a food source.

Discuss what you have drawn and why they choose to live there:

Discuss some of the environmental factors that may stop your animal/insect from living out its life cycle, e.g. Koala's are losing their habitat due to deforestation and as a result their numbers are declining.
